

Electrical/Mechanical Assembler

TEST-FUCHS Corporation

USA, Ohio, Brecksville

Your job with a vision at TEST-FUCHS

We are a leading, global provider of aerospace test equipment for civil and military applications. Founded in 1946 in Austria, the third-generation family business has grown into an international operation with over 650 employees at 12 locations worldwide. The company places a strong focus on custom design, engineering and manufacturing. Management values, supports and empowers employees to succeed and make a difference in the aerospace industry.

We provide aerospace test equipment for aircraft production as well as component manufacturing and aftermarket MRO solutions. Besides that, TEST-FUCHS plays a unique and important role in aircraft ground support equipment for the airline industry.

Our US-location (founded in 2017), and the second global equipment production facility, currently employs around 20 highly qualified employees and offers plenty of room for further growth and personal development. We are hiring an Electrical/Mechanical Assembler for **Ohio, Brecksville** to aid the US production of test equipment.

Responsibilities

- > Assemble electrical and mechanical aerospace testing components
- > Follow detailed engineering drawings, bill of materials and instructions to complete proper assembly
- > Perform activities such as wiring, soldering, machining, fabricating and installing tubing, etc.
- > Use a variety of hand-tools and power tools to complete product assembly and fabrication installation components
- > Ensure the proper functioning and upkeep of our tools
- > Assist with inventory and maintain a clean and safe work environment
- > Assist with all various aspects of assembly as required
- > Utilize problem-solving skills as a resource for continuous improvement
- > Communicate and document any necessary or requested changes with the on-site engineering team

Qualifications

- > 3 years + of previous mechanical / electrical assembly experience
- > Working knowledge of and ability to use mechanical, electrical and measuring tools
- > Able to work in a team-oriented environment
- > Ability to support engineering in writing general assembly instructions when necessary to document process
- > Ability to read and interpret mechanical and electrical schematics
- > Ability to lift and move 50 pounds
- > Basic computer skills

Benefits

- > Competitive salary and performance-based incentives
- > Comprehensive health, dental and vision insurance.
- > Life and AD&D, short-term and long-term disability insurance
- > Paid time off and holidays and flexible working hours
- > 401(k) retirement plan with employer contribution matching
- > Education Reimbursement

Shape the future with us. We look forward to your application!
